A-2703	SERVER-MAIL Phishing attempt possible download of malware	Medium	The user may have opened a malicious email and opened attachments or clicked links.	Escalated ▾

Ticket comments
There are several inconsistencies with this email that indicates a phishing attempt. The sender's email address and name are different. There are also several grammatical errors in the body of the email. The attached file's hash has been previously linked to a known malicious piece of malware named FlagPro from Black Tech. The ticket has been escalated.

Additional information

Known malicious file hash:
